PLEASE READ BEFORE BIDDING

Coins and medals are sold at *so much per lot* and no lot will be separated. The auctioneer will accept an advance of 1 cent up to 50c., then 5c. up to \$2.50, when 10c. advance must be bid, up to \$10, when no advance under 25 cents will be accepted. You can bid anything up to 50c., after that the bid must be 55c., or 60c. Such offers as 51c., \$1.01, etc., are unavailable.

Auction sales are strictly for cash. Parties unknown to me and bidding for the first time, must give bank or other reliable reference.

Forward your bids as early as possible, as thousands of bids have to be entered. Do not make ridiculously low bids, such as 10 and 15c. on foreign silver coins worth several times over as bullion. Write your bids plainly, with a pen if practicable. I have taken special pains to carefully and fairly describe each lot.

Where the number of pieces in a lot is not given after the description, there is but one piece in the lot.

The coins, etc., in each lot are different unless otherwise described.

Be sure you bid on the lot you wish to buy.

All coins etc., are genuine unless otherwise described.

My charge for executing bids will be 5 per cent. No charge made for bidding except for lots actually purchased. Remit by money order or New York draft, as the usual exchange fee will be deducted from checks.

We will price your catalogue for \$1.00.

THIRTY-THIRD SALE.

WASS, MOLITOR & COMPANY \$5—1879 STELLA.

- 747a 1852. \$5. Wass, Molitor & Co. Obv., head of Liberty to left, surrounded by stars and date, similar to U. S. \$5. On the diadem of Liberty, "W., M. & Co." On the reverse is an eagle surrounded by the inscription "In California Gold, Five Dollars." This is the first time this coin has been offered at public sale, so far as there is record, since the Randall Sale in 1885. It is of extreme rarity, and we are not certain that it is not entitled to rank with other rare California \$5 pieces, which have brought very large premiums. The piece is in very fine condition. Mr. E. H. Adams has stated that the manufacture of this coin was almost responsible for the suspension of coinage by the U. S. Assay Office in 1852, as the U. S. Assay Office was permitted to strike only pieces of the denomination of \$50 early in that year. The depositors took their raw gold to the assay offices of Wass, Molitor & Co. in preference and had it struck in these pieces. As they were worth \$5.04 they doubtless were melted up for bullion, which accounts for their present rarity.

- 747b 1879. Stella. Barber's design. In very fine condition. A loop has been removed from the coin, leaving scarcely any trace, and the piece is still a very desirable specimen for any cabinet. Very rare and in great demand.
